PUFFINS

Puffins sits right at the **intersection**.

India already loves snacking.

Expectations are evolving.

Better-for-you choices
with great taste are winning.

Puffins is designed for
this **new era of snacking**.

It started with a simple thought. “Why can’t a rice cake just be a snack?”

So, somewhere we thought—what can be light, tasty, healthy and easy to carry?

That’s when we found rice cakes.

We noticed something interesting about rice cakes.

The product was already familiar, but the way people thought about it felt limited.

We saw an opportunity to change that.

What if rice cakes could be **flavourful**, **exciting**, **easy to carry** and genuinely **enjoyable** — anytime?

That thought became **Puffins**.

“
We didn’t invent
rice cakes.
We just imagined
a **better way** to
enjoy them.”
